MINERAL CORRECTOR PALETTE

CORRECT IMPERFECTIONS.
RESTORE CONFIDENCE.

CORRECT IMPERFECTIONS. RESTORE CONFIDENCE.

This versatile palette instantly corrects the look of imperfections. Complete with five shades to neutralize red, blue, and yellow tones, Mineral Corrector Palette provides natural-looking coverage.

HOW TO USE

Try each shade alone or blend to find best coverage based on your skin tone. For best results, layer over **colorescience**® Skin Perfector or Foundation with a patting motion to press product onto skin. Continue layering until desired coverage is achieved.

SHADES 1 & 2

- + Blemishes
- + Redness
- + Broken Capillaries

MORE FROM COLORESCIENCE®

SKIN PERFECTORS

colorescience® award-winning, custom-created Skin Perfectors provide chemical-free sun protection, help diminish the look of fine lines and pore size, while treating specific skin concerns with targeted skincare ingredients and color correction.

FOUNDATIONS

colorescience® antioxidant- and vitamin-infused, broad spectrum SPF 20 & 30 foundations come in two finishes — liquid or pressed — and a considered shade selection that provides sheer to full coverage for porcelain to deep skin tones.

UV PROTECTORS

colorescience® UV Protectors deliver chemical-free sunscreen protection with added defense from environmental stressors. Gentle enough for every skin type, layered protection has never been this easy to apply and reapply throughout the day.

ENHANCERS

Correct, highlight and define using natural, skincare-infused color enhancements. **colorescience**® Enhancers offer breathable, healthy-looking, and radiant color for eyes and face.
